

SR1A – at the edge of a coupe planting, surrounded by moderately dense deciduous & conifer trees
SR1B – among deciduous trees, mostly tall birch and spindly oak. Fairly sparse
SR1C – within the camp, young deciduous trees with little understory other than bracken
SR1D – predominantly deciduous with some conifer
SR1E – mostly deciduous
SR1F – almost entirely coniferous
SR1G - mostly coniferous
SR1H – mixed, shaded, damp, turned out to be a muntjac hotbed (for the trailcam)
SR1J – similar to SR1B
SR1K – close to path but backed by mixed mature deciduous & conifer
SR1L – relatively open area with bushes, small trees
SR2A – moderately dense deciduous & conifer
SR2D – mixed with little understory other than bracken
